## केन्द्रीय प्रदूषण नियंत्रण बोर्ड

(भारत सरकार का संगठन)

पर्यावरण एवं वन मंत्रालय

**Central Pollution Control Board**

(A Govt. of India Organisation)

Ministry of Environment & Forests

Phone : 22304948 / 22307233

### FOREWORD

The Ministry of Environment & Forests (MoEF), Govt. of India has promulgated "Manufacture, Storage, and Import of Hazardous Chemicals (MSIHC) Rules, 1989" under the Environment (Protection) Act, 1986.

The Central Pollution Control Board collected the information from various industrial units and compiled database on the product name and quantity of Hazardous Chemicals imported by the industrial units in the country.

The following Engineers and Scientists viz. Mrs. Anjna Singh, Environmental Engineer, Shri G. Thirumurthy, Environmental Engineer, Shri Paritosh Kumar, Senior Environmental Engineer, Mrs. Mahima T, Assistant Environmental Engineer, Ms. Gayithri H.V, JRF and Ms. Poonam Kumari (DEO) contributed to data compilation, evaluation and finalization of report under the guidance of Sh. P.M. Ansari, Additional Director with overall supervision of Shri J. S. Kamyotra, Member Secretary.

Hopefully, this Report will be useful for concerned Authorities and other stakeholders.

April, 2010

  
(S. P. Gautam)

## 1.0 BACKGROUND

Govt. of India has promulgated "Manufacture, Storage, and Import of Hazardous Chemicals (MSIHC) Rules, 1989" under the Environment (Protection) Act, 1986. According to Section 18 (2) of the said rule, any person responsible for importing hazardous chemicals in India shall provide (before thirty days or as reasonably possible but not later than) the date of import, to the concerned authorities as identified in Column 2 of Schedule 5, the information pertaining to,

- ❖ Name and Address of the person receiving the consignment in India;
- ❖ The port of entry in India;
- ❖ Mode of transport from the exporting country to India;
- ❖ The quantity of chemical(s) being imported; and
- ❖ Complete product safety information.

The above rule is applicable to a chemical which satisfies any of criteria laid down in part I of Schedule I or listed in Part II of this Schedule.

The Central Pollution Control Board (CPCB) or the State Pollution Control Boards / Pollution Control Committees have been identified as the Authority for enforcement of directions and procedures in respect of isolated storage of hazardous chemicals and Import of hazardous Chemicals and enforcement of directions and procedures on import of hazardous chemicals as per Rule 18.

In view of the above, CPCB is regularly receiving information from various industries about hazardous chemicals imported. The information received, has been summarised under the following heads:

- Types of chemicals imported
- Quantity of hazardous chemicals imported
- Ports of Import
- Status of information, etc.

## 2.0 IMPORT OF HAZARDOUS CHEMICALS - YEAR WISE

As per the MSIHC Rules, CPCB has been receiving information from industries importing hazardous chemicals since May, 2003. Information on Import of Hazardous Chemicals from May, 2003 to April, 2009 (yearwise) is summarised in **Table 1 and Fig1** along with other relevant information like number of chemicals being imported, number of Industries furnishing the details of import and mode of transportation etc.

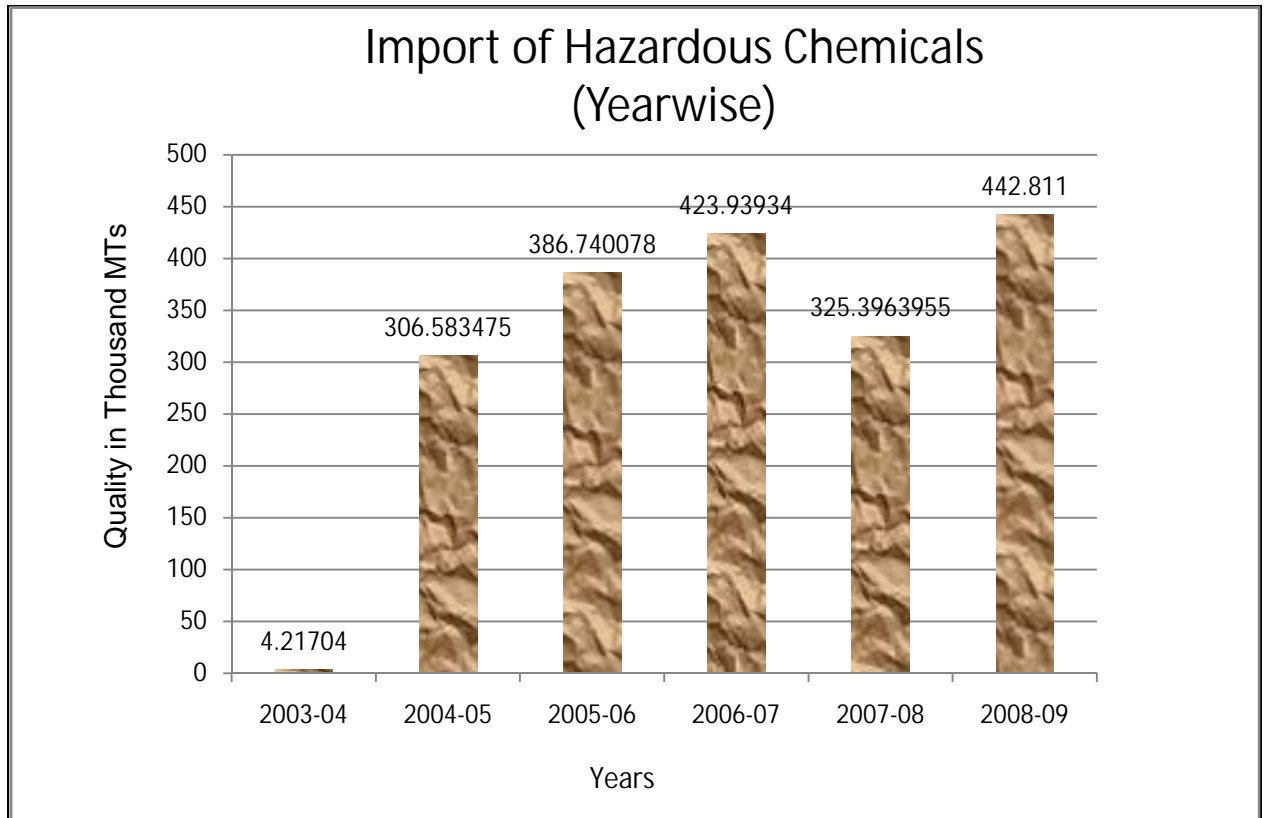

From Table 1, it is observed that the quantity of hazardous chemicals imported over the years had increased up to year 2006-07, however declined in the year

2007-08, but again increased in the year 2008-09. From the table, it is evident that the response from industries is increasing year by year. In the year 2007-08, maximum 82 industries submitted information of their import, however, in the year 2008-09, only 70 industries have submitted information of their import. Number of industries submitting the import information and number of chemicals has reduced considerably in the year 2008-09, but the quantity of chemical imported has increased by 26.5% as compared to 2007-08.

**Table 1: Quantity of Hazardous Chemicals Imported**

Sl. No	Year	Quantity ( MT)	No. of Industries	Mode of Transport		No. of Chemicals
				By Sea	By Air	
1	2003-04	4217*	13	3	-	25
2	2004-05	306584	28	6	-	46
3	2005-06	386740	34	7	-	51
4	2006-07	423939	63	8	-	90
5	2007-08	325396	82	12	2	117
6	2008-09	442811	70	15	-	86

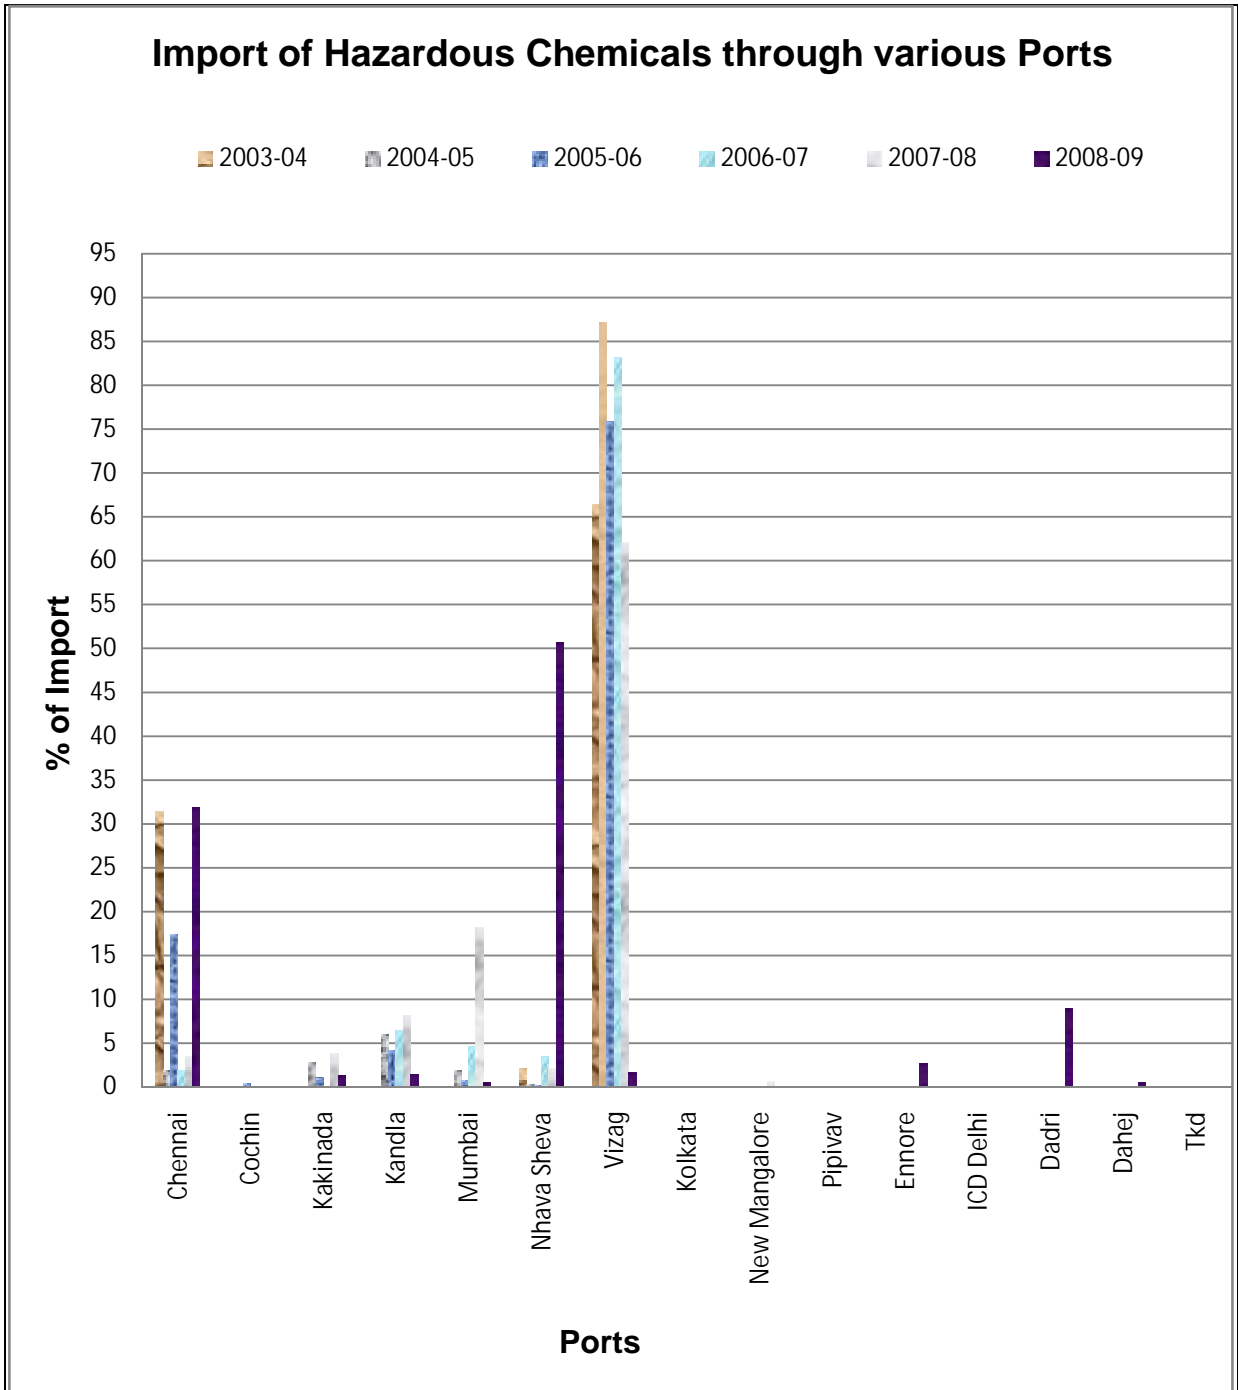

**Note :** \* - from May 2003 to March 2004

**Fig. 1: Quantity of Hazardous Chemicals Imported**

### 3.0 PORTS OF IMPORTANCE

In India, the major sea ports used for import of chemicals are Nhava Sheva, Chennai, Ennore, Visakhapatnam (Vizag) Kakinada and ICD Dadri. The total quantity and the percentage of chemicals imported at various ports are given at **Fig 2 and Table 2**. It is observed that major import of chemicals is through Nhava Sheva, followed by Chennai, Dadri, Ennore and Kakinada. In year 2008-09, new ports are introduced for import of chemicals namely Dahej, Dadri and Tughlakabad.

**Fig. 2: Percentage of Hazardous chemicals imported at various ports**

**Table 2: Chemicals Imported through various Sea ports & Air ports**

Year	Mode of Transportation																
	By Sea															By Air	
	Chennai	Cochin	Kakinada	Kandla	Mumbai	Nhava Sheva	Vizag	Kolkata	New Mangalore	Pipivav	Ennore	ICD Delhi	Dadri	Dahej	Tkd	Delhi	Chennai

#### 4.0 HAZARDOUS AND TOXIC CHEMICALS

Six Hundred and Eighty Four (684) hazardous and toxic chemicals are listed in part II of the MSIHC Rules. The details of chemicals being imported in the last six consecutive years 2003-09 are listed in **Table 3**. Total 209 hazardous and toxic chemicals are being imported by the industries. Based on the information furnished, chemicals inventory is prepared and observations as presented below:

- ✓ In the year 2003 - 04, out of 4217 MT of chemicals imported, Methanol import was maximum i.e. 58.64%, followed by Tetrahydrofuran (12.29%), Hydrobromic acid (5.92%) and other chemicals. The same are depicted in **Fig 3**.
- ✓ The total quantity of chemicals imported in year 2004 - 05 was about 3.07 lacs MT. Import of Ammonia was maximum (42%), followed by Phosphoric Acid (27%), Methanol (11%), Sulphuric acid (8%) and other chemicals. The same are depicted in **Fig 4**.
- ✓ In the year 2005-06, about 3.86 lacs MT chemicals were imported. Import of Ammonia was maximum (35.27%), followed by Phosphoric Acid (29.16%), Tertiary Butyl Acetate (10.89%), Methanol (10.75%), Formic Acid (5.75%) and other chemicals, which are depicted in **Fig 5**.
- ✓ During the year 2006-07, total quantity of chemicals imported is about 4.24 lacs MT. It is observed that the import of chemicals is about 23.5% more than the previous year. Import of Ammonia was maximum (54.99%) of total import of chemicals, followed by Phosphoric acid (13.32%), Methanol (11.3%), Styrene (5.12%) and other chemicals contributes around (15.27 %), which are depicted in **Fig 6**.
- ✓ It is observed that the quantity of import of Hazardous chemicals increased from the year 2003-04, while in year 2007-08, the total quantity of import decreased by 23.24% than the previous year. It is also observed that import of Ammonia increased over the last three consecutive years i.e.2004-05 to 2007-2008. The total quantity of chemicals imported during the year 2007-08 was 3.25 lacs MT. Import of Ammonia was the maximum i.e. 31.2% followed by Styrene 15.67%, Phosphoric acid 13.58 %, Methanol 12.95 % as shown in **Fig 7**.
- ✓ During the year 2008-09, there is 26.51% increase in the quantity of hazardous chemicals imported compared to the previous year 2007-08 and amounts to 4.41 lacs MT. However, number of chemicals imported has sharply declined in this year. Import of Toluene Di Isocyanate (TDI) (Cosmonate-T-80) was maximum i.e 29.77% followed by Toluene Di Isocyanate (TDI) & TDI (Desmodur T-80) (25.65%) and Tetra Hydrofuran (9.97%) as shown in **Fig 8**. It is also observed that though the import of ammonia was maximum in the last 4 consecutive years from 2004-08, its import during the year 2008-2009 is the least.

**Table 3: Year wise Import of Hazardous & Toxic Chemicals**

## 5.0 ANALYSIS OF IMPORT OF HAZARDOUS CHEMICALS AND PORTS OF ENTRY

Analysis of import of hazardous chemicals and port of entry is summarised in **Table 4 to 8** for the years 2003-09. The close examination of these tables brings the following information:

### Year 2003 – 04 (refer Table 4)

- 25 types of chemicals were imported.
- Chemicals were imported through Chennai, Nhava Sheva and Vishakhapatnam ports.
- Most of the time, specific chemicals are imported through specific ports only.
- Maximum quantity of chemicals were imported through Vizakhapatnam followed by Chennai and Nhava Sheva, whereas the maximum variety of chemicals were imported through Chennai port i.e. 21 type of Chemicals.
- Methanol was imported only through Vishakhapatnam port i.e. 2,473 MTs (58.64% of total import quantity).

### Year 2004 – 05 (refer Table 5)

- Six ports were used by the industries for importing 46 types of hazardous chemicals.
- As observed earlier, Vizakhapatnam port imports the maximum quantity of chemicals followed by Kandla, Kakinada, Chennai and Nhava Sheva. However maximum types of chemicals were imported through Chennai followed by Kandla.
- Ammonia was imported in the order of about 1,30,064 MT (42.24% of total import quantity), through Vizakhapatnam port.

### Year 2005 – 06 (refer Table 6)

- 51 varieties of chemicals were imported through various ports.
- Vizakhapatnam port imports the maximum quantity of chemical (mainly Ammonia), which contributes to 35.3% of total import.
- Maximum quantity of chemicals were imported through Vizakhapatnam followed by Chennai, Kandla, Kakinada, Mumbai, Cochin and Nhava Sheva, whereas maximum types of chemicals were imported through Chennai port i.e. 39 Chemicals, followed by Kakinada port.
- Chennai port though receiving maximum variety of chemicals i.e 39 nos, but percentage of import in quantity is about 17.5% only.

**Year 2006-07** (refer Table 7)

- It is observed that 90 types of chemicals were imported through 08 different ports in India.
- Vizakhapatnam port has received 3.5 lacs MT of chemicals i.e. 83.23% of the total import. It is also observed that Ammonia was imported only through Vizakhapatnam port which consists of 55% of total chemicals import.
- Chennai port has received maximum types of chemicals i.e. 53 nos, but the overall % of import was 1.92, which is comparatively lesser than the previous year.
- Kakinada port has received 120 MT of only one chemical i.e Naphthalene, which is the maximum quantity of hazardous chemical imported at a port.

**Year 2007-08** (refer Table 8)

- It is observed that, 117 nos of Hazardous chemicals were imported through 12 sea ports and 2 air ports. The quantity of chemicals imported by airways is very less i.e. around 3.26 MTs.
- Vizakhapatnam port has received 2.022 lacs MT of chemicals which is equivalent to 62.14% of overall import quantity.
- It is observed that Ammonia was imported through Vizag port during the last three year, but the same has been imported through Kakinada port also during the year.
- It is observed that Mumbai port has received highest number of chemicals i.e. 30 nos, followed by Chennai (26 nos).
- Kakinada port has received 12500 MTs of chemicals and accounts for 3.84 % of overall import quantity. New ports like New Mangalore and Ennore have received 2100 MTs and 4135 MTs of chemicals respectively.
- Quantity of import through the remaining ports namely Kolkata, Cochin, Pipivav and ICD Delhi were not much.

**Year 2008-09** (refer Table 9)

- It is observed that 86 hazardous chemicals were imported through 15 sea ports and the quantity of chemicals imported is 442811 MT's. No chemical was imported via airways.
- Maximum quantity of chemical was imported in port Nhava Sheva 2.24 lacs MT (50.71%) followed by Chennai 1.41 lacs MT (31.85%), Dadri and Ennore.
- Chennai port received maximum number of chemicals i.e. 54 nos, followed by Nhava sheva 24 nos.

- Import of TDI (Cosmonate T-80) was maximum and ported through Nhava sheva, Chennai, Delhi and Dadri.
- New ports like Dahej, Dadri & TKD received 2515.87 MT, 39731.4 MT and 182.3 MT respectively.
- Least quantity of chemical was imported through Pipavav port 77.6 MT.

**Table 4: Port-wise Distribution of chemicals for year 2003-04**

## 6.0 ANALYSIS OF IMPORTERS AND ENTRY PORTS

The information of import of hazardous chemicals furnished was mainly by laboratories, dyes, fertilizer, pharmaceuticals and pesticide manufacturers in India. **Table 10** shows the list of importers along with their import quantity from year 2003 to 2009.

**Tables 11 to 16** show the importers and quantity of hazardous chemicals being imported through various industries in different years. In year 2003-04, M/s APL Chemi Natura Ltd, has imported about 2,473 MT of Chemicals, which is the highest quantity of import in that year. Quantity wise, M/S Coromandel Fertilizers Limited occupied first position by importing 2.287 lacs MT, 2.457 lacs MT and 2.775 lacs MT of chemicals during the year 2004-05, 2005-06, 2006-07 respectively. M/s Coromandel Fertilizers had imported maximum quantity 1.447 lacs MT of chemicals only through Vizag port. In 2008-09, Khandelwal Laminates Ltd has imported maximum quantity of chemicals 1.51 lacs MT, followed by Hetero drugs Ltd 1.35 lacs MT and Hetero Labs Ltd 0.64 lacs MT and was mainly imported through Nhava sheva and Chennai port.

**Table 10: Importers and their Quantity of Import**

## 7.0 INFORMATIONS TO THE AUTHORITY

Industries are required to provide the details of import of hazardous chemicals to the concerned authorities in prescribed format. Some industries are regularly furnishing the information about their import of hazardous chemicals, but, the information furnished is not complete in all respect as per format. It has been observed that one or the other information was missing. The details of the import of chemicals submitted by the respective industries are compiled in **Table 17**. The details of the industries are given at **Annexure I**.

**Table 17: Data Submitted By the Industries**

Note: Y-Submitted N-Not Submitted

From the above table, it is observed that information furnished by many industries is not sufficient as per the MSIHC Rules. Many industries are not furnishing information on product specification and Material safety data sheet. It is advised that the industries should furnish all the information as per above mentioned rules.

## 8.0 ANALYSIS OF INDUSTRY Vs HAZARDOUS CHEMICALS

Analysis of industry Vs hazardous chemicals are summarised in **Table 18** for the last six years i.e.2003-09. Close examination to the table reveals that M/S Pon Pure Chem Pvt. Ltd has imported highest number of chemicals i.e 53 nos, followed by Dr. Reddy's Lab Ltd 30 nos, Pure Chem Pvt Ltd 27 nos and then Overseas Polymer Ltd 22 nos of chemicals. Pon Pure Chem Pvt. Ltd is importing highest number of chemicals from last six years.

Industries like Divi's Laboratories Ltd, Hetero Drugs Ltd, Hetero Labs Ltd, and Matrix Laboratories Ltd imported more than 10 and less than 20 chemicals. BASF Coatings (India) Pvt. Ltd BASF India Ltd, Jindal Mectec Pvt Ltd, Satwik Pesticides Ltd and Synthokem Labs Pvt Ltd imported more than 5 and less than 10 chemicals. Rest of the industries are importing less than 5 nos of chemicals

**Table 18: Industry Vs Hazardous chemicals**

Sl. No	Name of Industry	Name of the Chemical
1	Aastrid International Pvt. Ltd	Maleic anhydride
2	Agarwal Chemicals	Phenol
3	Alpha technology Pvt.Ltd	Methyl Bromibe
4	APL Chemi Natura Ltd	Methanol, Sodium metal
5	APL Peroxy Chemicals Ltd	Hydrogen Peroxide
6	Arctic Super chemi	Formic acid
7	Arihant Foam Privat Limited	socyanate konnate TDI-80
8	Aghoka Flexi	Lupranate T-80 (isocyanate)
9	Anu's Laboratories Limited	Methanol
10	Amazon Papyrus chemicals pvt. Ltd	Amicide
11	A.S Moosani & Company	Methanol
12	Arinities Sales Pvt. Ltd	Acetone, Methylene Chloride, Methyl ethyl ketone
13	Asian Peroxide Ltd	2-ethyl anthraquinone, Aromatic hydrocarbon mixture, Hydrogen Peroxide
14	Asoka PU Foam (India) Pvt. Ltd.	Lupranate T-80, TDI(Desmodur & Cosmonate)
15	Astrix Laboratories Ltd	Therminol D12
16	ATC Chemicals India Pvt. Ltd	Leather chemicals, Phenol
17	Auctus Pharma Ltd	Acetonitrile, Methylene Chloride. Methylene dichloride
18	Aurbindo Pharma Limited	Hydroxyl Ammonium Sulfate, Methanol Methylene chloride, Trimethyl acetyl chloride
19	Banmore Foam Udyog Pvt Ltd.	Lupranate T-80, TDI (Desmodur)
20	Bansali Associates	Formic acid
21	BASF Coatings (India) Pvt. Ltd	Acryamide, Bisphenol-A., Formic acid, Methyl methacrylate, Methyl-3-Methoxyacrylate Naphthalene, Styrene
22	BASF India Ltd	Acryamide, Formic acid, MDI (Desmodur 44v20L), Naphthalene, Phenol, Styrene
23	BASF Polyurethans	Diphenyl methane 44 diisocyanate(MDI), Iso Cyanate, Lupranate T-80,
24	BASF Styrenics	Styrene
25	Bhansali Chemicals Madras Ltd	Calcium Carbide, Formic acid, Methanol
26	Bharath Solvents & Chemicals	Maleic anhydride
27	Bharathiya Foam udyog	Lupranate T-80, TDI

133	Vinarom Pvt. Limited	Dimethyl benzyl carbiny butrate solution
134	Wanbury Limited	Iso propyl alcohol
135	Yans Impex Overseas Leather Chemicals	Formic acid

## 9.0 Conclusions

- Import of hazardous chemicals increased from 4,217 MT in 2003-04 to 4.24 lacs MTs in 2006 – 07. There was a decline in import during the year 2007-08 to 3.25 lacs MT but increased to 4.42 lacs MT in the year 2008-09 i.e there is a net increase of 1.17 lacs MT. However, this may not be the real picture as many industries might have not informed to Central Pollution Control Board and might have informed to State Pollution Control Boards / Pollution Control Committees.
- Hazardous chemicals were imported from 15 sea ports namely Vizakhapatnam, Kakkinada, Chennai, Cochin, Kandla, Mumbai, Nhava Shava, Kolkata, Ennore, New Mangalore, Pipivav, ICD Delhi, Dahej, Dadri & Tughlakabad.
- Nhava Sheva port received maximum quantity of hazardous chemicals of about 2.24 lacs MT during the year 2008-09 while Chennai port received maximum number of chemicals 54 nos.
- 133 industries have furnished the details of their import. Response from industries is increasing year by year. Khandelwal Laminates Ltd imported maximum quantity of chemicals i.e 1.51 lacs MT, while M/s Pon Pure Chem (P) Ltd imported highest number of chemicals i.e 53 nos.
- It is observed that 89 different types of chemicals were imported through above said ports. Import of TDI Cosmonate (T-80) was highest in terms of quantity and contributed to 29.79% of overall import followed by TDI Desmodar (T-80) 25.56%, Tetra Hydrofuran 9.97%, Sodium Boro Hydride 6.67%, Cyclo Hexanone 5.64%.
- Among all ports, Nhava Sheva and Vishakhapatnam ports are importing high quantity of chemicals. Ammonia is very toxic gas, it is necessary to have disaster management plan and it should be periodically reviewed by the concerned authority. It is very essential to have proper supervision during unloading operation, since there are high chances of leakage of ammonia during the operation.
- Authorities of Ennore, New Mangalore, Pipivav and ICD Delhi port have to plan for safe handling, storage and transport facilities. Similarly, remaining port authorities also have to work out the emergency preparedness plan according to quantum of import and handling in a time.
- Many of the industries are not furnishing complete information as per the prescribed format. At maximum time, product specifications are not given, even some industries do not furnish the quantity too. So it is very difficult to quantify the import.
