Uttarakhand

Date and Remarks	Orders of the Tribunal
Item No.	The consultants who are present even today, now
May 08, 2017	for first time, had told us that they have taken figures
ss	supplied by Uttarakhand Jal Nigam as the figures and
2	verified it, but there is no record of data as they lost it
	while shifting the base. This story does not enjoy any
119	confidence. It is clear that this consultant had carried no
1 2	survey, physical verification, actual flow, content,
1	quantum and quality of the effluents flowing in the drain.
-	It is a matter of some concern that only two persons
	without employing any staff carried out the work without
	survey which even was admitted at the last date of
	hearing.
	Once the data is improper, we wonder any project
	report, any DPR prepared on such basis could be correct
	to the extent that huge public fund could be spent and
	setting up of a STP etc.
	While disposing this matter we will consider all
	these issues for passing appropriate order and directions.
	She also says that they found 8% to 10% variation in the

Item No. flow of the drain in comparison to Uttarakhand Jal Nigam, 01 but did not verify and prepared any documents in that May 08, 2017 behalf. The DPR has been stated to be approved by the SS Uttarakhand Government again without any physical verification. No third party verification of the DPR was done. The consultant also submits that she never verified that the constituents of the effluent flowing in the drain. List this matter for further directions on 05th June, 2017 on which date all the officers concerned would be present before the Tribunal. (Swatanter Kumar) (Bikram Singh Sajwan) (Dr. Ajay A Deshpande)
