Date and Remarks	Orders of the Tribunal
Order no. 4 23rd July, 2014	<p>Heard. Perused.</p> <p>Today this matter is posted before us for taking review of the compliance of the order dated 4th March, 2014 disposing of the present application.</p> <p>We have before us the last compliance report filed on behalf of the Respondent No. 2/Jaipur Development Authority(JDA) and Respondent No.3/Jaipur Nagar Nigam. Photographs of the action taken for deconcretisation at the base of the trees within the city of Jaipur are before us. Photographs reveal that the work of deconcretisation around the base of the trees has been done. However, to our mind something more needs to be done especially around the base of the trees where depressions have been created on removal of the concrete in the process of deconcretisation. These depressions/pits are an invitation to accidents especially to the old and infirm people walking on the footpaths. We, therefore, direct the JDA and municipal authorities to fill those pits/depressions created as a result of deconcretisation preferably with the garden soil/mulching material.</p> <p>As regards the compliance of the direction for initiating state-wide action on deconcretisation and conducting census of trees in urban areas, the learned counsel for the State submits that compliance report in that regard could not be filed for want of the ministerial assistance</p>

in attestation of the compliance report. However, he has been instructed to state that the State had issued directions to the Municipal Corporations/Councils of the cities and towns within the State of Rajasthan to take measures for carrying out census of trees and for deconcretisation as well as on implementation of the guidelines on the greening and landscaping of the urban areas. He seeks time to file a compliance report.

Let the compliance be reported well before the next date of hearing positively. List on **19th August, 2014.**
