Date and Remarks	Orders of the Tribunal
Item No. 2 2nd December, 2015 Order No.2	<p>Heard.</p> <p>We have perused the record produced by the Applicant.</p> <p>The crux of the allegations made by the Applicant is that due to the flow of contaminated water from the industrial unit of SON Ankur Exports Pvt. Ltd, the water of bore-well of the Applicant as well as bore-wells of the members residing in nearby vicinity are contaminated.</p> <p>Considering the fact, the MPCB duly got analyzed the samples collected from the industrial unit separately and bore-well and thereafter, by communication dated November 9th, 2015 informed the Deputy Collector, Solapur that the standard of the water found in the outlet of the ETP of the industrial unit was within the index of the concentration, though the water of the bore-well was found exceeding limit of sulphate, Ca hardness, total hardness, which is beyond the permissible limit. It is important to mention here that by communication dated October 7th, 2015 and May 5th, 2015 issued by MPCB makes it clear that the water in the bore-well was found suitable for drinking purpose. Thus, it was noticed that the water in the bore-well is potable water and there appears no interconnection between contamination alleged in the quality of water in the bore-well and the quality of water which is found extracted from the outlet of the industrial unit (ETP).</p> <p>The compliance of effluent standard by the authorities and disposal of some kind of particular matter of the remains of the part of the body of dead animals/ carcass during the process is totally absent, though we</p>
